Skanadario Hosts Booth at Plano Live Green Expo

Over 12,000 people attended the second annual Plano LiveGreen Expo held at the Plano Centre on April 12. Skanadario had a booth that received great attention.

Our booth had a working FloWise toilet on a demonstration stand. The FloWise from American Standard is a HET (high efficiency toilet) that only uses 1.28 GPF (gallons per flush). This 20% water savings can make a huge impact on water consumption in the average household. This 20% savings has enabled the FloWise to earn the EPA's (Environmental Protection Agency) WaterSense label. The WaterSense label is the new equivalent to the EnergyStar rating for electrical appliances. Even with this reduced water usage, the FloWise still scores an 850 out of 1000 on the standardized MAP test. This makes it perform better than most of the standard 1.6 GPF toilets on the market.

Additionally, our booth had a Bosch dishwasher and a Takagi tankless water heater.

Skanadario hosts booth at Plano's Live Green Expo to promote green products.

American Standard's Flowise toilet uses only 1.28 gallons per flush, but flushes better than some standard 1.6 gpf toilets.

About Skandario

Skandario, Iroquois for "beautiful water," is the showroom division of Goodman Supply. The showroom features decorative plumbing, elegant hardware, and luxury appliances. The plumbing part of the showroom, one of the only American Standard gallery showrooms in the country, displays a wide range of kitchen and bath products, including American Standard's Jado and Porcher luxury brands. Additionally, the showroom carries international designer lines and local products from Texas-based artisans and companies.

The appliance showroom features luxury appliances from Viking, Miele, Thermador, and Bosch. Additional specialty lines include Vent-A-Hood, U-Line, Asko, Gaggenau, Hoshizaki, and Independent. Working displays include Miele's Master Chef Oven as well as its Steam Oven, Speed Cook Oven, and built-in coffee maker.
